“The Durable Decking Board With A
Wood-Grain Texture So Natural,
It Could Fool An Expert”

DuraLife™ Natural Grain
COLLECTION
SAFE, DURABLE DECKING SYSTEMS
Inspired by Nature. Built to Last.

New!

Driftwood

Burnt Walnut

Golden Oak

Western Redwood

Safe and Durable Decking with a Realistic Wood-Grain Finish. Available in Four Contemporary Colors.

- **Durable Construction...**unique formula helps prevent splintering, warping, cracking, and rotting.
- **Less Hassles...**unlike wood decks, DuraLife™ decking needs no annual scraping, sanding, or staining.
- **Strong And Safe...**especially when combined with our Railways® railings that have an R1 Residential Rating—the highest rating possible.
- **Peace Of Mind...**backed by a comprehensive 25 year ltd. warranty from GAF Materials Corporation, a three billion dollar company (see ltd. warranty for complete coverage and restrictions).
- **Reversible Board Finish...** natural deep wood grain emboss on one side & a contemporary “combed” emboss on the opposite side that allows customization (see photos).
- **Long-Lasting Beauty...**naturally resistant to mold, mildew, and insects because it contains virtually no digestible nutrients.
- **Special Formulation...**high density polyethylene and rice hulls composition helps eliminate exposed wood particles found in standard composite decking that typically leads to staining and fading issues.
- **Eco-Friendly...**rice hulls are an abundant and renewable agricultural fiber.

Reversible Board Gives You More Design Options!

Choose Hidden Fasteners For A Better Finished Look...

DuraLife™ decking can be installed using regular deck screws. But for a neater finished look, choose one of our unique hidden fastener systems. It makes installation a snap and delivers greater holding power than ordinary plastic clips.

NOTE 1: It is difficult to reproduce the color clarity and actual color variations within these products. Some variations in color on new and aged product is natural. Before selecting your color, please ask to see actual samples. See limited warranty for complete coverage and restrictions.
